# DETAILED ANALYSIS OF THEME

Interpretation of the pentagram and texts Lydia Bosson

## STEVEN SPIELBERG 18 December 1946

### 1. Introduction

In pentanalogy, we distinguish 9 types of individuals, that is 9 basic radiations. Each type of pentanalogy perceives the world differently. The type is the radiation, the main life theme. It is the colour of the individual. The basic filter by which the individual will perceive life experiences. Of course, the type occupies a crucial part in the pentagram but the figures that it is made of also play a major role.

The moment the working of one's type is perceived, one understands that our perception in relation to our past, our emotions and our sufferings are not collective general information but actually individual and personal perceptions. Becoming aware of one's type and its mechanism, helps us to free ourselves and grow.

The program is such that the type code enables us to get information on previous lives and on parents' relationships at the time of our conception. To conclude, each type has its own qualities, challenges and obstacles to overcome. To be born with a certain pentanalogic type therefore indicates what spectacles we are going to use to perceive our environment and what are the experiences that we are going to live.

### 1. The decisive age or the key to maturity

#### An important change in Steven Spielberg's life

The decisive or maturity age is the result of all the numbers in Steven Spielberg's date of birth. For example if Steven Spielberg born in 25.11.1972 = 2 + 5 + 1 + 1 + 1 + 9 + 7 + 2 = 28 = 2 + 8 = 10 (see introduction on the pentanalogy website). The native of this date is a type 10. In the above example the decisive age is at 28 years.

The decisive age can be considered as the fundamental step when this thing inside of us – called the self, the unconscious or even the soul – reaches maturity. It's at this moment that it becomes determined and is ready to accomplish its mission.

For this reason we live around the decisive age important moments. This can happen months before or after this maturity age. These are often essential experiences. This moment can be marked by an event that can take this kind of form : wedding, birth, professional change, meeting of a partner, travel, settlement in a new country, relationship change or an other new step in life.

The years before this step are part of the learning and training to finally arrive on the path.

After this step, it's like the path before Steven Spielberg unveils its magnificence and that its way gets all its soundness. A new vision appears. It allows to give a true direction to its existence. It's like from now on the mission, the personal quest, the search of this balance – unreachable until now –

reveals itself completely. We can truly talk about Steven Spielberg's freedom.

Steven Spielberg's maturity age is at : 32

## 2. Steven Spielberg's type

Steven Spielberg's way of functioning in existence and his talents

The pentagram represents a star with five branches on which we can distinguish 10 positions, each one of them has a signification on a specific theme of life. The positions are fundamental because the digit is present, double, absent or visited by another digit, the pentagram will be very different. In this way, each pentagram is individual because according to one's type (see the types) and the digits of the date of birth, each constellation becomes unique. Discover how Steven Spielberg deal with the important matters of his/her existence. Steven Spielberg among those of the type 5 in pentanalogy. ### 3. Determination of objectives

A great irony fills you regarding the need to achieve a goal. Sometimes you hesitate between pursuing a goal in a determined, decisive and let-go manner expecting things to happen by themselves. Consequently, you struggle to set priorities, at times you feel frustrated because you yearn to accomplish an « important mission », on the other hand you are under the impression that it is too difficult to make a choice. #### 7. Attitude in relationships

Proximity with others makes you sometimes scared and you need some time to open yourself and reveal your personality to others. You perceive things in a different way and it is up to your free will to associate yourself with any one person. Nevertheless, it is up to you to take the first step and go towards the others. You have to learn to take initiatives and show courage, to be open and receptive and leave your shell that conveys a false sense of security. Otherwise, you are likely to feel strange all your life.

You constantly have the feeling of having to be extraordinary to please. However, the group supports you little and you give up in case of problems. Experiencing loving relationships is part of the primordial values in your life. However, your expectations and demands in love are enormous. You don't express them and do not say them clearly. For this reason, you may leave your partners without warning them and without showing them signs of crisis. In the beginning of a relationship, you have often a feeling of «already known ». Some will say that the link dates back to a previous life and that you have to correct yourself of karmic errors. Learn to communicate your needs clearly. Don't be too hard neither on yourself nor on others, but allow yourself to be surprised in your relationships. Welcome the «crises» as opportunities for evolution and growth. Display creativity and imagination but also joy and humor in "difficult" moments.

In this way you will live with more flourish and have easier relationships.

You have psychological wounds and have an enormous need for affection and for love. By nature a listener you are sensible to the tone and to the way in which things are presented. If you feel yourself aggressive by the voice of your partners. You can react in an extreme manner and without foresight.

#### 11. Listening skills and integration

You are free in your choice of your centres of interest. You can thus decide what you want to know, learn, specialize in etc. All you have to do is to ask, and you will obtain the required information. However, if the request is not clearly worded, access will be barred. You need to show initiative and have a clear objective to acquire this knowledge. If you are interested only in the community «trend», you risk omitting in recognizing your real talents. Nevertheless, as you have a difficult choice to make, you require some time to determine your field of interest. You have the possibility of developing talents in the most varied domains. However, it is important for you to learn to transmit the skills that you have acquired. Thus you evolve on all levels of life, spiritual, mental, emotional and material. If you use this spiritual seed and you contribute more at the right moment and at the right place then the Universe will reward you abundantly. Knowing how to seize this opportunity depends a lot on the work that you do on your personal development.

Your timidity can render you little septic and proud you can attach much more to acquisition. Doing this can block your evolution and present progress. You have need of time and distance to be able to form

your own opinion or something or someone and you should ask for a long time in order to act. This constant hesitation makes one perceive you as someone complicated and / or cold, serve in your judgment. You should learn to forgive and to overcome their wounds. Do not remain forced on your experiences of the past that which will reduce you bitter and to contribute to doing what you especially attract in complicated and negative situations. A positive attitude and enthusiasm the face of life is determined for you, in that which causes the possibilities of abundance and flourishing in all levels (material, psychological, spiritual). You should take the initiatives and create (begin) communication with others. You will then be surprised by the resonance that this manner of action can create.

#### 12. Vocation and relationship to authority

If you show courage and commitment, you will manage to penetrate and impose yourself in the domain of your choice. You must learn to assert yourself within your social position. If you adopt a holistic vision and you have clear objectives and goals, you can acquire independence and autonomy. You must gain confidence in yourself and have targeted use of your capabilities. You hold the possibility of realizing the highest ambitions if you do not submit to the «dictates» of the community and if you aspire to realize your spirituality. This requires an investment and a permanent action and will power and perseverance on your part. You will thus win over your natural need to hide yourself behind others and get a lot of recognition and success.

You execute your tasks in conscientious and precise manner. You seek above all material success, which you motivate to progress. Rational and

realistic, you have a tendency to excessive materialism in the first half of your life. By following them, the experience you push to open yourself to the spiritual domain and to develop to your advantage your emotional intelligence. The paternal image is often noticed as dominant and authoritative and influenced your first professional choice but equally colors your relation with men in general. With maturity, you will succeed to take more and more recoil by rapport of your need to recognition and will cultivate these.

### 13. Inner conflicts or tensions

Polarity tension (1-6)

The paradox CREATION - DESTRUCTION

Your pentagram reflects tension between your spirit and the force of your being, between your head and heart, between your idealistic ideas and force of action, and finally between the telluric forces and cosmic forces. It is as if you were separated into two

halves that often are unaware of each other. This aspect can create doubt, vacillation, the sentiment of being shared and the sentiment of being under constant pressure. You could be obstinate and impatient, at the same time indecisive and spontaneous. You aspire to attain your goal as soon as possible without delay. Thus, you can lose the holistic vision of life and become imprudent. Escaping orders and instructions, you have your way. That is why those around you can sometimes perceive you as authoritative and selfish. Time management seems difficult to you and you are endlessly between indecisiveness and precipitation. This introduces a paradox between some uncertainty that troubles you but that turns out to also be a need. It would be judicious to learn to respect the right moment and the suitable achievement time. Cultivate in this way patience, develop love, learn to fix priorities, make a life plan with precise long term goals, put risks into perspective in case of decision and do ground exercises like yoga, Gi gong, meditation or gardening. Thus the tension that appears in your pentagram will be controlled. It will get transformed into a significant potential that will lead you to success at all levels.

### 14. The challenges of existence or thresholds

The more the circumstances will be against You, the more the inner strength will be striking.  
- Vivekananda

The reading of your pentagram allows a threshold to appear. It is a combination of digits that includes two opposite polarities.

It can see itself as door, a passage, an opening or a bridge: in all these cases, it is a challenge to be conquered in order to create harmony between two aspects that seem to be totally contradictory.

It stands out as an examination to be taken and is connected with a process of personal development. It is therefore a stage to be crossed.

The problems, obstacles, difficulties, realization constitute these thresholds and our duty is to conquer them.

To live one's threshold is an opportunity that allows us to abandon old patterns, abandon our beliefs, constraints and obstacles.

Conquering a threshold enables one to free oneself, create a new space that one can arrange according to one's wishes.

If difficulties are considered as opportunities that can consciously change our destiny, the passage of the threshold brings a new freedom and liberates our real potential. Our inner strength is thus reinforced.

Any problem resolved, any difficulty surmounted, any obstacle eliminated brings gain and success to the one who knew to handle it!

Emotional threshold (4-8)

## EMOTIONS

To win over this challenge you must free yourself from constraints imposed by your education and your orderly thinking. Your digestion could be difficult, indeed blocked at the physical and emotional and mental levels. This blockage can lead to consequences at several levels:

- at the physical level: tight stomach, difficult digestion, abdominal pains, short breaths, asthma.

- at the psychic level: anguish, fears, insomnia.

Your difficulty to digest comes from the fact that you struggle to overcome wounds, vexations and all the emotional problems in general, victim of your excellent emotional memory. You can consequently lack emotional control and tend to develop exaggerated reactions at this level. Your main expectations give way to a lot of deceptions and your perfectionist side makes you extremely demanding with respect to yourself and also to others.

You may suffer from an inferiority complex and therefore you sacrifice yourself and you bow down to others' orders. The experiences that you have, makes you take your fate in hand and not depend on others' fate anymore.

Loyal and devoted right from your young age, you think you have to bend to your parents' needs and demands under the principle that if you give constantly, you ensure others' love. Sensitive, you immediately perceive others' psychic problems and consider that it is your duty to console, even if you have to sacrifice your own needs. You feel

responsible for fulfilling the expectations of those around you and overlay your role.

Behind your practical side and your sense of sharp reality churn emotions and are ready to burst at any moment. Thus you cannot prevent yourself from ruminating constantly.

Nevertheless, your sense of organization is legendary, you are methodic and strategic. Your perception of beauty is extremely developed, you know how to do interior decoration with taste and love and your creativity is unlimited.

If you gain in emotional and spiritual maturity, you can then blossom and take full advantage of your creative potential that happens to be immense.

Lend an ear to your own desires and don't have fears of not being able to realizing them. Refuse to make sacrifices due to your simple fear of love of the other and learn to love yourself just as you are.

Besides, you have to listen to your alarm signals from your body and dare to express your discomfort. Be aware that perfection does not exist and show compassion and indulgence in the face of your weaknesses.

#### 15. Steven Spielberg's mental attitude and professional

Enthusiastic and spontaneous, you like to express yourself and communicate. You are an optimist and passionate leader knowing how to see the positive side of the others, motivate them and encourage them. Don't overestimate your energetic capacity, because you have the tendency to do 1000 things at a time and dissipate yourself. Assume the results of

your words and become aware that all you do can have consequences. You have the thirst to learn new things, experience new horizons. However, learn to go up to the end of things and don't abandon the moment you see a first obstacle, Go beyond your boredom and concentrate on one subject at a time. It seems that all the professions where the verb and argumentation are important are made for you. Become aware that you can change things by your words and writing. Learn to observe before formulating and free yourselves from your incantations and your beliefs. Don't allow to be provoked nor be submerged by your emotions.

#### 16. Conclusion

Your evolution may only result from some keys that you need to understand and knowing how to use. Thus you need to be aware that your need of importance creates precisely your suffering. All your emotions are only created by your mind and to show your real face won't make you rejected by others. It's your ego that creates your unconscious manipulations that must be revealed and that you need to be conscious of. Your need of success at any price must also be contained. Observe your environment and surroundings. Are the exchange with your relationships rewarding, are they making you evolving? If the people that surrounds you bores you, that you perceive them as 'ordinary', that you have the feeling to be stuck, thus take a step back and observe.
