Donald Trump's maturity age is at: 31

DETAILED ANALYSIS OF THEME

Interpretation of the pentagram and texts Lydia Bosson

DONALD TRUMP 14 June 1946

1. Introduction

In pentanalogy, we distinguish 9 types of individuals, that is 9 basic radiations. Each type of pentanalogy perceives the world differently. The type is the radiation, the main life theme. It is the colour of the individual. The basic filter by which the individual will perceive life experiences. Of course, the type occupies a crucial part in the pentagram but the figures that it is made of also play a major role.

The moment the working of one's type is perceived, one understands that our perception in relation to our past, our emotions and our sufferings are not collective general information but actually individual and personal perceptions. Becoming aware of one's type and its mechanism, helps us to free ourselves and grow.

The program is such that the type code enables us to get information on previous lives and on parents' relationships at the time of our conception. To conclude, each type has its own qualities, challenges and obstacles to overcome. To be born with a certain pentanalogic type therefore indicates what spectacles we are going to use to perceive our environment and what are the experiences that we are going to live.

1. The decisive age or the key to maturity An important change in Donald Trump's life

The decisive or maturity age is the result of all the numbers in Donald Trump's date of birth. For example if Donald Trump born in 25.11.1972 = 2 + 5 + 1 + 1 + 1 + 9 + 7 + 2 = 28 = 2 + 8 = 10 (see introduction on the pentanalogy website). The native of this date is a type 10. In the above example the decisive age is at 28 years.

The decisive age can be considered as the fundamental step when this thing inside of us – called the self, the unconscious or even the soul – reaches maturity. It's at this moment that it becomes determined and is ready to accomplish its mission.

For this reason we live around the decisive age important moments. This can happen months before or after this maturity age. These are often essential experiences. This moment can be marked by an event that can take this kind of form : wedding, birth, professional change, meeting of a partner, travel, settlement in a new country, relationship change or an other new step in life.

The years before this step are part of the learning and training to finally arrive on the path.

After this step, it's like the path before Donald Trump unveils its magnificence and that its way gets all its soundness. A new vision appears. It allows to give a true direction to its existence. It's like from now on the mission, the personal quest, the search of this balance – unreachable until now –

reveals itself completely. We can truly talk about Donald Trump freedom.

Donald Trump's maturity age is at : 31

2. Donald Trump's type

Donald Trump's way of functioning in existence and his talents

The pentagram represents a star with five branches on which we can distinguish 10 positions, each one of them has a signification on a specific theme of life. The positions are fundamental because the digit is present, double, absent or visited by another digit, the pentagram will be very different. In this way, each pentagram is individual because according to one's type (see the types) and the digits of the date of birth, each constellation becomes unique. Discover how Donald Trump deal with the important matters of his/her existence.

Donald Trump among those of the type 4 in pentanalogy that symbolizes force of materialization

. Responsible, ambitious, perseverant, disciplined and equipped with a practical sense Donald Trump know how to put everything together to achieve the goals fixed. Always ready to commit Donald Trumpself and work hard to realize Donald Trumpr goals, Donald Trump generally know exactly what Donald Trump want.

Donald Trump like to work by clearly defining everything, fixing the place, organizing projects in a detailed manner.

In Donald Trumpr relationships Donald Trump need to be certain and Donald Trumpr friends,

partners and Donald Trumpr spouse can count on Donald Trump. However, Donald Trumpr need for an exaggerated security has it that He has to experience uncertainties and win over worries in relation to this aspect. Donald Trump assume Donald Trumpr professional and family responsibilities and are sensitive to the social aspect and the efficiency of the people.

Be aware that the need for security is based on an existential fear, which gives rise to a new fear. In Donald Trumpr subconscious mind there is a program that Donald Trump could have some day a material problem which creates this omnipresent worry.

Donald Trump could be described as a soldier who must protect and inspect the construction of all the material possessions, borders established and spaces determined. This attachment to the established norms prevents Donald Trump sometimes from evolving and having new experiences.

Time and space constraints and the fact that He has the impression of having to apply unconditionally established rules stress Donald Trump constantly.

Perfectionist, Donald Trump like things being «well done ». However, Donald Trumpr excessive worry over small things makes Donald Trump sometimes lose the big picture and curbs the results of Donald Trumpr objectives.

Right from Donald Trumpr childhood He has the feeling that those around Donald Trump want more from Donald Trump than what Donald Trump can give. For this reason He has often the impression that a simple suggestion from a comrade is an order that He has to execute quickly to which Donald Trump often react with irritation, indeed with aggressiveness to the great dismay of Donald Trumpr environment.

Donald Trump don't particularly like the existing system but at the same time Donald Trump believe Donald Trump must submit to it. This phenomenon creates a big internal tension between Donald Trump need for independence and freedom and Donald Trump need for certainty and security.

Donald Trump need for succes is based on the desire for independence and freedom. Donald Trump believe to have acquired the freedom and the control over Donald Trump life through Donald Trump succes. This trait of character has it that Donald Trump living life in a methodical, strategic and systematic way. Donald Trump like the clarity of spirit and Donald Trump consider difficulties in life as challenges to be won over in a consciencious, disciplined manner, respecting rules.

As much as Donald Trump may appear communicative and friendly in public, Donald Trump also appreciate sometimes silence, even the solitude of Donald Trump «4 walls» where Donald Trump like to reign and let Donald Trumpself go.

Donald Trump dream of peace and harmony and have the impression that the world around Donald Trump is rife with conflicts and combats. It seems that Donald Trump find Donald Trumpself often in opposition with someone be it Donald Trump head, neighbor, children, spouse... the feeling that others don't do things «like it must be done » haunts Donald Trump continuously.

Donald Trump constantly focussed on the future and the projects that Donald Trump want to achieve. This fact creates stress, pushes Donald Trump often to the brim of crisis and prevents Donald Trump from attaining serenity.

Stop getting irritated if others dont do like how

Donald Trump wanted them to do. Don't work anymore till Donald Trump tire Donald Trumpself out and sink into depression. Give time to Donald Trump goals that He has fixed and learn to have patience.

Donald Trump paramount fear is missing Donald Trump fixed goal, lose time, not be able to assume Donald Trump responsibilities
... Therefore, Donald Trump often under pressure for time, due to the goals to be attained. He has the impression of being able to reach the end. What prevents Donald Trump from fully savouring the present is the fact that Donald Trump focus already on what Donald Trump must do the next day.

Beware!

Donald Trump have the tendency to get attached to Donald Trump possessions in an exagerated way. Donald Trump perfectionism sometimes becomes a mania. As Donald Trump concentrating on small details, Donald Trump run the risk of not getting the big picture.

Donald Trump qualities:

Donald Trump methodic, strategic and organized. Reliable and efficient Donald Trump among those on whom one can count. Realistic, Donald Trump know how to propose pragmatic and efficient solutions. Donald Trump know how to study a project upto its smallest detail.

Archetypes of type 4:

Professions that bring out Donald Trump qualities and Donald Trump care for materialization that are most exercised by the type 4. In this way, architecture, entrepreneurship, engineering, accounting and economics are part of Donald

Trump path. But it is also possible for Donald Trump to follow the direction of professions related to administration (civil servant), priesthood, surgery, different systems of security (police), teaching or even the profession of a solicitor.

3. Determination of objectives

You have a yearning for achieving and realizing your goals. You are among those who must demonstrate a lot of discipline and will power to reach their goals. Your path may seem arduous and you must overcome many obstacles. However, your efforts will bear fruit if you show will power and clearly fix your long-term goals. Keep your long-term vision without getting swamped by every-day life pressure.

You know to follow your objectives with perseverance, endurance and remaining completely focused on your idea. In consequence, your companions may perceive you as a little stubborn (obstinate) and equally as some one who wishes to impose her desires. You cultivate honesty, respect and desire to remain correct in all the levels. It is essential for you that one should recognize your contribution and your engagement. Your need for security and certainty encourage you every of your surroundings. People whom you estimate to be well know authorities in certain areas (fields, domains). If a lack of confidence in you is present. It is that which is hidden under a . You can be timid and it is necessary sometimes to gain confidence for your fear most of all ridiculed or humiliated. You should learn to become generous with yourself, relative to your need of recognition, relative to your of time, and you should gain much humor, that which will be

(ease) the situation. Thus you will obtain more joy and satisfaction in your steps (undertakings).

4. Reasoning and analysis

In this lifetime, you have the possibility of finding a new way of thinking and analysing things. You are free in your spiritual and philosophical choices and can accept different mentalities and view points. During your childhood, your mother influenced your thinking a lot and guided you in your choices. However, it is rare for your mother to have shared her real sentiments and she hardly communicated her deep convictions and ideas. Consequently, you dont know what she thinks and feels really. Due to this, you require some time to learn what attitude to adopt with women and how to perceive their needs. Learn to analyse life with more maturity which will help you to reposition yourself and free yourself from certain beliefs and prejudices on the image you have of yourself and women. Dont have self-pity about your fate, you will gain in clarity and manage to overcome your emotions better. You will thus succeed in communicating with more tact and will know how to distinguish better things that could hurt or harm others.

Sensible, respective and open you like to protect and motherly. For this reason you often hold on to be one who hardly manages their life in order to support and help them. This aspect creates an ideal mental structure for all professions of social order. The type 4's of which you are a part, are often considered as a little rigid, but your way of thinking and your open viewing of the angles, gives you a capacity for adaptation opposing to the generalities of your constellation. Understanding and gentle you fear to be a burden for the others and constantly respond that

whatever be your state of mind at that moment. You appear confident to the world and to the others. If

you gain advantage of confidence in yourself you will know better to affirm yourself and you desire to help will be more re compensated.

5. Communication

You communicate spontaneously and impulsively, sometimes without thinking in advance. It may be that you sometimes use « wrong » words at the « wrong » moment. All of a sudden, you feel rejected by others. One could say that diplomacy is not your cup of tea. You like to have several plans and objectives but they could be perceived as unrealistic and confusing. In the event of conflict, you often feel having no recourse while coping with affronts and are overwhelmed by the fear of not being able to overcome them. If you learn to evaluate situations in an objective and pragmatic way, if you take time to think before you leap, if you step back and take time before jumping to conclusions, then you will succeed in asserting yourself better and get more support from the others.

Intuitive you know what to do to affirm yourself. You often find yourself put under pressure and can react in a stressful manner. Your great force and your capacity for regeneration can be utilized only if you know to define your objectives in a clear manner. If this will not be produced your tendency to react impulsively and to let yourself be carried away towards the actions that you yourself regret by the result will be if you cultivate the patience and from much constraints that can reduce your life difficulties.

6. Time management and a sense of duty

You are among those men who are perfectionists, who like precision and who want the realization of plans to exactly correspond with their projection.

You happen to note that there is stress around you without realizing that it is sometimes the source of these tensions. This is because you are demanding and you wish that your wife, children, colleagues, employees apply the same principles of order and perfection as you. Your need for material security is very important and could dominate all the domains of your existence. In this way it is difficult for you to venture into unknown zones at the material level and you can stagnate in uncomfortable situations for fear of missing and losing things. You have the feeling of being often confronted with material obstacles and having to also constantly assume the « survival » of your near and dear ones. You are often obsessed by the feeling of « lacking » time. Learn to affront fate with optimism, in a positive way, things will fall into place more quickly and your sufferings will cease. Stop working so much and give yourself more leisure time, to enjoy your house, being with your loved ones, more time for rest and regeneration.

7. Attitude in relationships

In the beginning of your existence, you often felt strange in your environment. Proximity with others makes you sometimes scared and you need some time to open yourself and reveal your personality to others. You perceive things in a different way and it is up to your free will to associate yourself with any one person. Nevertheless, it is up to you to take the first step and go towards the others. You have to learn to take initiatives and show courage, to be open and receptive and leave your shell that conveys a false sense of security. Otherwise, you are likely to feel strange all your life.

In spite of a great compensation for individualism you cherish the company of others and you like to engage yourself socially. Fearing deception and betrayal you have a tendency to avoid very deep

feelings and you wait for a long time before you engage yourself in the long term. That which pushes you in not giving yourself the time of waiting is finally to avoid total disillusionment. Pay attention to not resigning yourself very quickly and to conduct yourself a little, because the danger of stagnation exists beautifully and well in that which concerns you. The flourishing of yourself will be prevented if you do not know to open to your advantage and to make confidence the deception is not a failure ?9defeat but often an experience which help to evolve and to take conscience of our values and needs.

8. Family influence and vital energy

Your values and expectations linked with family and couple's life are important. You are ready to invest fully in your relations and expect as much from your family and friends. You must gain self-confidence, and closely scrutinize compromises that you have the tendency to make in the name of peace. If you try to get involved in others' life, you will come across weakness (physical or material) in your own existence, obliging you to take care of yourself once again. Moreover, if you try to make others financially dependent on you, then you will yourself encounter similar problems one day. You seek material abundance, but you must often work more than others to get it. Show gratitude and recognition, savour what you have realized as material objectives, contribute and make the general public benefit from the asset, don't stop working. Or else you are likely to lose everything once again, obliged to start everything from zero.

9. Identity and individuality

You were born with the freedom of recreating your life as you want it. First of all, you must put into

practice what you have learnt in your childhood and have the tendency to celebrate life as your parents have done. Even with different values, you must however apply the same rules. If your parents lived in distress, you will also be sad, if they were happy, you will be happy. You have received the gift of being able to specialize yourself but you will seize this opportunity only if you can perceive special things that exist. For this, it is good to deepen your philosophical knowledge of life and look for the depth of life while remaining open to the world. Faith contributes significantly to your success. Having such a faith means perceiving truth intuitively without submitting oneself to the truth of a specific movement. It is in this way that you will find the strength and will to love life such as it appears and have the courage to do things that you have chosen. This liberation brings you health and abundance at all levels of your existence. Without being conditioned and being scared of « what others will say », you can really blossom.

You have a tendency to research for a long time the deep sense of life. Optimistic, you believe that the future will be more (beautiful) each day. This attitude can lead you to frustration and of resignation with time and age. You should gain confidence in yourself and thus discover your potential which is often important. You seek recognition more deeper and are ready to invest your body and soul in order to evolve it. Your evolution and the most diverse thing will be beneficial for all of your friends.

10. Beauty, love and harmony

Learn to like all aspects of your being. As long as you don't accept yourself, and don't love yourself, you will doubt that others could do it. You are sure that «great love» exists. Despite the fact that you are constantly afraid of committing yourself, you always place freedom before love. For this reason you are

all the time looking for happiness, without really believing in being able to attain it. In your relationships, you are likely to lose control of your emotions. Be aware that sometimes you adopt an attitude of being a victim that prevents you from being objective and seeing the situation with some hindsight. If you can display some humor, laugh at yourself and accept in others and in you all the aspects of being, then you can really blossom and experience love relationships and joy.

Time is a given factor (essential) in accordance to your confidence. You aspire to that which in your opinion (that you hardly change) will be respected and recognized. If this will not happen you will have a tendency to be angry and vexed. Susceptible you react at the drop of a hat if you perceive pressure. You love what you do and wish others to respect you. Comparison with others is unbearable to you. Proud, you are equally prudent and selective in the choice of your friends and have a hard time to forget and forgive them. You should learn that their suggestions are not forceful orders and a (critic) is often an invitation to evolve and to seize new opportunities. Each moment and each day offers you the possibilities of a new departure (also in love).

11. Listening skills and integration

You are free in your choice of your centres of interest. You can thus decide what you want to know, learn, specialize in etc. All you have to do is to ask, and you will obtain the required information. However, if the request is not clearly worded, access will be barred. You need to show initiative and have a clear objective to acquire this knowledge. If you are interested only in the community «trend», you risk omitting in recognizing your real talents. Nevertheless, as you have a difficult choice to make, you require some time to determine your field of interest. You have the possibility of developing

talents in the most varied domains. However, it is important for you to learn to transmit the skills that you have acquired. Thus you evolve on all levels of life, spiritual, mental, emotional and material. If you use this spiritual seed and you contribute more at the right moment and at the right place then the Universe will reward you abundantly. Knowing how to seize this opportunity depends a lot on the work that you do on your personal development.

In order to realize your dreams, you should first learn to identify your interests and desires to accept your experiences as an apprenticeship and to integrate the new revelations. Thus you will be able to overcome your tendency to admire others and to idealize them, and you should equally take recoil by rapport of your educative qualities, take care of parental influences and gain confidence in yourself. Thus you should avoid repeating the same experiences that your parents had and you will succeed in freeing yourself from uncultured beliefs.

12. Vocation and relationship to authority

You are free in your choice of your social status. In the beginning of your life, you tend to adapt yourself or submit yourself because you are not used to power nor have the required skill to use it. Then, you often adopt a similar attitude to that of the dominant father figure, in the face of authority or domination. The way your father has lived his male side, greatly influences your yang side. If he was not able to free his inner power, you may fear authority during your entire life. If he were someone who knew how to share and transmit a sense of security, then you will know to take initiatives and commit yourself. However, you are free to be aware of this phenomenon and thus enable your real potential to free itself. You must reflect on what you feel with others: Do you feel helpless in the event of conflict? Are you looking for protection and help when you

need to defend yourself? Your experiences during childhood are determining factors in finding answers to these questions.

You seek for a long time your own vocation. You hardly identify your needs and concrete interests. This lack of clarity by rapport to yourself makes you often choose jobs which present themselves without much analysis if you really desire to exercise it. This attitude equally influences the choice of your spouse/companion. Sometimes you remain in a difficult situation and fear of conflict and of loneliness and because you lack the certainty by rapport of the picture of the men in general. This is formed by the paternal images. While identifying the mechanisms of your father, you succeed to gain more certainty and will know to affirm yourself to the advantage.

13. Inner conflicts or tensions

Polarity tension (1-6)

The paradox CREATION - DESTRUCTION

Your pentagram reflects tension between your spirit and the force of your being, between your head and heart, between your idealistic ideas and force of action, and finally between the telluric forces and cosmic forces. It is as if you were separated into two halves that often are unaware of each other. This aspect can create doubt, vacillation, the sentiment of being shared and the sentiment of being under constant pressure. You could be obstinate and impatient, at the same time indecisive and spontaneous. You aspire to attain your goal as soon as possible without delay. Thus, you can lose the holistic vision of life and become imprudent. Escaping orders and instructions, you have your way. That is why those around you can sometimes perceive you as authoritative and selfish. Time management seems difficult to you and you are endlessly between indecisiveness and precipitation. This introduces a paradox between some uncertainty that troubles you but that turns out to also be a need. It would be judicious to learn to respect the right moment and the suitable achievement time. Cultivate in this way patience, develop love, learn to fix priorities, make a life plan with precise long term goals, put risks into perspective in case of decision and do ground exercises like yoga, Gi gong, meditation or gardening. Thus the tension that appears in your pentagram will be controlled. It will get transformed into a significant potential that will lead you to success at all levels.

14. Donald Trump's mental attitude and professional

You like to collaborate and associate yourself with others in a harmonious and peaceful environment. The small attentions and appreciations count a lot

for your well-being. For your evolution it is important to come out of your beaten tracks and experience new horizons and perspectives. Sometimes those around you perceive you as obstinate and stubborn, because you want to impose your visions and your objectives. To revolutionize things and change the existing structures do not scare you and you hate rigidity. Nevertheless, you don't particularly realize that you can be very firm when it comes to pursuing a precise goal or if it means defending your ideas. If you succeed in freeing yourself from inculpable beliefs through your education, your professional possibilities are quite unlimited and you will succeed in realizing great missions.

15. Conclusion

They are some keys for your evolution that you need to be aware of. The more you need safety the more you will be uncertain. Be conscious that your exaggerated sense of responsibility is holding you back. The nature itself doesn't let time put pressure on it and nature should be your first professor by teaching you that time is only an illusion. Your need of certainty keeps you from discovering your fundamental essence, and your obsessive need of order prevents you of feeling all joy that life wants to give you. You need to let go on your mental to make your life a spiritual experience and thus stop to fight endlessly. Observe your habits. Do you feel the pressure on having to do things now? Is your work a daily fight to achieve your goal? Do you often think: I must, I don't have time, I need to, it must be done...? Do you perceive suggestions and recommendations from others as orders? Take a step back and observe.
